Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Mr. Oremland felt that newly presented claim 31 read on the elected species. However, the newly added claim 31 recites the stem extending into and through the tool access opening in the fluid system cover and engaging the underside of the cover. This limitation is not present in the the elected species shown in Figs. 12-27, but is shown in the non-elected species (see Fig. 8, ref. no. 122). All claims that are held by the examiner as not being directed to the elected subject matter are withdrawn from further consideration in accordance with 37 CFR 1.142(b).
